## VISIT RUBBER PLANTATIONS BY SMALL MARGIN

Charles G. Heiser, Jr., was appointed at a meeting of the stockholders in the Hidalgo Coffee and Rubber Plantations yesterday afternoon as the stockholders' representative to go to Mexico and make a report on the condition of the two plantations. He will leave either on the Manchuria or Ventura so as to meet officers of the company who will leave San Francisco February 3.

The meeting held yesterday afternoon was at the request of the officers. In a communication sent to the stockholders here get together and decide upon a man to be sent as their representative to Hidalgo and there make an investigation and confer with the manager. The officers said in the same communication that they would go themselves to the plantation. There has been dissatisfaction felt by stockholders on the investment, and it is thought that this move, which is made at the expense of the plantation, is designed to clean things up in the minds of the stockholders.

for Infants and Children.

The Effects of Opiates

arations, all of which are narcotic, is well known. Even in the doses, if continued, these opiates cause changes in the functions and growth of the cells, which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsis and lack of staying powers, are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with nanly after being introduced. Other arti- cotics.
